#### Review:

Contribution of protein binding to the therapeutic plasma levels of cefpodoxime. The protein binding of cefpodoxime and of its major metabolite, 6-keto cefpodoxime, was studied in the presence of human serum albumin and in the plasma of healthy volunteers. The binding of cefpodoxime to albumin was dependent on albumin concentration, was minimal at low concentrations (total in albumin to free drug-ratio approximately 0.3) and maximum (total in albumin to free drug-ratio approximately 0.7) at high levels (40-fold excess). The binding of 6-keto cefpodoxime to albumin was much lower and was independent of albumin concentration. When cefpodoxime was administered as a single i.v. dose of 50 mg to healthy volunteers, the disappearance (half-life) of the unbound drug and the free fraction of 6-keto cefpodoxime showed little correlation with the level of protein binding ( $r = 0.052$ ). On the other hand, the initial volume of distribution of unbound cefpodoxime at the time of administration (mean, + or -SD) showed an approximately linear relationship with total protein binding ( $r = 0.888$ ,  $P = 0.0006$ ). Thus, the post-therapeutic level of unbound cefpodoxime in plasma was dependent on total protein binding and

The Digicore Colossus isn't your typical robot. An enormous hybrid of technology and organic muscle, he wields explosive bursts of kinetic energy and deadly telekinetic abilities that give him an edge when his enemies attack. And he's up for the job. Angered with the atrocities committed against his people and pushed into a life of crime, the Digicore has come to earth to take vengeance upon those who treat him like a lesser life form. As the son of two scientists, you're the closest thing he has to a father. Unfortunately, you're also the least likely to give it. Jaded by the wars ravaging your planet and out of patience with the state of the world, you've become resigned to the fact that nothing is ever going to change. When a group of humans seek the Digicore's help in ridding your world of a corrupt and dangerous overlord, the first big-headed robot you've ever met may be the key to a new future for both your species and your world. It's up to you to decide. The Digicore Colossus is a 3rd-person action RPG with strong elements of combat, exploration, and strategy. Fight through randomly-generated worlds and grow your arsenal of weapons as you level up and utilize VFX-powered powerups. Alternatively, engage the Digicore in action-packed story missions. Work together as a team to carry out the orders of the Digicore's "father" as you follow the story's twists and turns as you discover the truth behind the origin of your world's troubles. Key Features: - A Unique VR Experience - Players will need to use a GearVR or Oculus Rift to fully experience the game. - Combat - The Digicore Colossus is a 3rd-person action RPG with strong elements of combat, exploration, and strategy. The Amazing Fact Behind The Mystery Of The Iceberg That Killed The Titanic: Beyond The Evidence - Theory of Icebergs The AmazingFactBehindThe MysteryOfTheIcebergThatKilledTheTitanic: BeyondThe Evidence - Theory ofIcebergs The Earth's crust is perforated by numerous deep fractures, formed during periods of continental drift when giant landmasses collided and forced the crust down into the liquid interior and then cooled. Geologic times scale, how old or young an area of a continent is, uses a scale that runs from zero to one over fifty-four million years. The deeper the shading, the older the area. The Titanic is the second of two similar ships, although far larger, to sink within a few years of the launching of the Titanic's sister ship RMSO Oceanic. Titanic featured faster, taller and wider than the earlier maiden voyage Centennial Olympic and Olympic class liners. The Titanic is one of the largest objects ever to sink an ocean-going vessel. The accident was the first in which both the captain and the lookout on watch were seen alive after the ship sank. Victorian-style grandeur and Edwardian-style luxury lined the corridors of the Titanic. Both first-class and second-class public rooms had their own main foyers featuring grand stairways, towering dome ceilings and elaborate decorations. The first-class public rooms included a chart room, a smoking room and a copy of Shakespeare. On the port side of the first-class public rooms, the men's smoking room was separated from the women's and a grand staircase, decorated with pink grandeur, led down to the accommodation quarters in-between the two Olympic class hulls. Guests had access to a private outdoor swimming pool for men, which measured 32 feet long and 18 feet wide. Upon its maiden voyage aboard the SS Queen Elizabeth, the Titanic set out on its final voyage on the evening of 10 April 1912, bound for New York City. On the evening of 14 April 1912, the ship hit an iceberg in the North Atlantic. The collision ruptured the hull, flooding the forward compartments with water, collapsed

Explore a Pathfinder compatible overland campaign for 4 level 7 PCs. The Tower of Screaming Sands. The greatest mystery in the wastes of western Jakku. A Pathfinder compatible overland campaign for 4 level 7 PCs, designed for the Pathfinder roleplaying game. The Pathfinder game system is a versatile ruleset based on the 3.5 system, which is designed to increase roleplaying complexity and capability. The Pathfinder version of this adventure is based on Pathfinder but can also be played with the third edition of the 3.5 ruleset. In the West, after the War of the Crossings in 2080 the necromantic horrors were destroyed but their power has not gone away. Hordes of strange creatures, many of them infected by the plague of necrosis, plague the scorched wastes of western Jakku, defending their territory from competing necromantic bands. All relics and ruins have been plundered by these hordwads, ensuring the scale of their dungeons is second to none. Jakku's scavengers are forced to look elsewhere for food. With the vast lands of Jakku a lethal and inhospitable region, the remaining survivors of the great War of the Crossings are forced to seek safety in the barren wastes. Despite the constant danger, these "wild orphans" have survived by scavenging for food in this lawless region, and stealing from any caravans that chance upon them. Trapped in a grim world of constant danger and ongoing scarcity, some of these orphans have thrown in their lot with the wild hordwads and now comprise their small numbers. The hordwads have learned to serve and protect their new allies, ensuring the safety of any survivors. The more disciplined of the tribes now focus on banding together to pursue their own interests, becoming ever more barbaric and lawless. Deep within the desert wastes a mysterious black tower has been sighted. The structure is not marked on any known map and has not been seen in this location by travellers in the region, yet there it stands. The adventurers set out to explore this ancient, isolated tower that appears ripe for the plundering. Within they face a gauntlet of sinister traps and supernatural horrors. The deeper the adventurers delve, the more secrets of the tower's origins they uncover. The tower's sinister creator does not rest easy in his arid grave - the adventurers must face him if they are to
